Assignment 3: Binaural Mix

This is an individual project.

Using the DearVR Micro Plug-In, you will make a binaural mix.

You may use any multitrack files you wish. A composition of your own is acceptable and even encouraged.

Your mix will be graded on the following criteria:

- Concept
- Musical Balance
- Creativity/Inventiveness
- Use of space
- Use of automation
- Quality of sound: tasteful use of EQ, compression, ambience, and automation as dictated by the style of the music and the concept of the mix
