### **Assignment 5: Immersive Audio and 360 Video**

This is an individual assignment.

You will marry audio recorded with video captured by a 360 camera, mix it Ambisonically, mux it with video, inject proper metadata, post it online, and send me a link.

See attached instructions for detailed steps and workflow.

You will be graded on the following criteria:

- Audio and video sync 40%
- Is the sound digetic? 40%
- Audio levels, and tasteful use of effects if needed 10%
- Working upload link 10%
